

Happy Physician Assistants Week!

We would like to thank all of our physician assistant members for their awesome contributions to providing high quality healthcare to our Colorado community. This year the theme for PA week is Physician Assistants Go Beyond. We have all had the experience of the excellent care that physician assistants provide to us and our families. Physician Assistants have always gone beyond to provide the best of what healthcare can offer.

Physician assistants are in primary care and most specialty departments and are critical to KP's success.

We ask all of our members to recognize the PAs you work with and to acknowledge their awesome contributions.

Sincerely,

UFCW Local 7 Leadership
