

Happy Nurse Practitioner Week ~ Rising to Meet the Needs of Patients

UFCW Local 7 is so proud of the patient-centered work of nurse practitioners throughout Kaiser Permanente Colorado. It has always been the case that nurse practitioners rise to meet the needs of patients, and this has become even more evident as our nation enters its third winter with COVID and an incredibly high volume of patients seeking the smart, compassionate care that they and their families need.

The nurse practitioners that UFCW Local 7 represents embody the highest ideals of healthcare. We in Local 7 are so grateful for you and the service you provide to our community.

Happy Nurse Practitioner Week!

Thank you for Rising to Meet the Needs of Patients!

Sincerely,

UFCW Local 7 Leadership
